

Sept. 5-11, 1926. In Guayaquil. Visits to market, to Prof. Francisco Campos R., Professor of Natural Sciences in the Rocafuerte College, Guayaquil, who has promised cooperation with local fishermen; made arrangements for transport of self and gear to Salinas.

Sept. 12-18, 1926. At Salinas and Punta Santa Elena, Ecuador, in company with Mr. John Reed, brother of the American Vice Consul at Guayaquil.

Sept. 19-Oct. 3, 1926. At Guayaquil and in vicinity, leaving for Paita, Peru, on latter date.

Oct. 4-14, 1926. Work at and near Paita, much assistance was rendered me by Senor Pierre Mountaban, Netherlands Consul in this port.

Oct. 17-26, 1926. Collecting in and near Salaverry, including Moche and Rio Moche, Peru. At Salaverry Mr. Floyd Sears, the local Grace Line agent, was exceedingly helpful, not only in furthering the objects of research in these localities, but with most generous hospitality, taking me in as a member of his family during my stay at Salaverry.

Oct. 26, Landed in Callao, remaining until Nov. 10. Divided time between Lima, Callao, and near by localities. Through the kindness of The Honorable Miles Poindexter, the American Ambassador, the American Naval Mission to Peru (Capt. J. M. Jordan (S.C.) U.S.N., in particular), and Ministry of Marine, it was possible to spend several days collecting at the Peruvian Naval Base on San Lorenzo Island and dredging off the island. Also visited the new Archeological Museum; Dr. Julio Tello, the Director, promised active cooperation in obtaining for the U. S. National Museum a representative series of the invertebrates of his country. In his
Oct. 26, 1926 - Continued

studies of the Inca civilization he has encountered numerous representations and adaptations of animal forms. These he wishes to determine and in order to do so must have the present fauna of Peru worked up in such a way that authoritative determinations, adequate descriptions, and illustrations are readily available.

Nov. 10, 1926. Sailed for Valparaiso, Chile, making stops and collections en route at Toecopilla, Antofagasta, Chánaral, and Cruz Grande.

Nov. 18, 1926. Arrive in Valparaiso.

Nov. 19-23, 1926. At Museo Nacional in Santiago, rendered helpful assistance by Dr. Carlos Porter, well known correspondent of the National Museum; Dr. Edward Moore, the Director; and Dr. Juan Brüggen, of the University of Chile, from whom a loan of South American, west coast fossil crustacea was made. Made the acquaintance of another correspondent of Museum, Dr. Alfredo Faz. Especial mention must be made of cordial reception by the Chilean Fisheries Department, Dr. Roberto Maldonado, Director. A most helpful cooperation was promised, the Fisheries Department arranging for collections of the crustacean fauna with a view to its determination and report by the U. S. National Museum in return for a complete species representation.

Nov. 24-26, 1926. In Valparaiso awaiting schooner for Juan Fernandez.

Nov. 27, 1926. Aboard schooner for Juan Fernandez, sailing Nov. 29, landing on Island Dec. 7, remaining until Dec. 27. Was enabled to observe one of the most productive crustacea fisheries, that of the Juan Fernandez spiny lobster (Palinostus frontalis), making observations and collections of the marine invertebrate and fish fauna. Extended most generous hospitality by Senor René Durand, at whose home I lived during my stay at this place. It was through the kind solicitation of Senor Alfred E. Trim, Passenger Agent of the Grace Line at Valparaiso, that Senor Doniez of Recard and Doniez,
Nov. 27, 1926 - Cont.

who control the "langosta fishery" of Juan Fernandez, that I was enabled to visit the Island.

Jan. 12, 1927. Arrive in Concepcion. Visiting the very excellent Museum maintained by the University of Concepcion under the able direction of Dr. Carlos Oliver Schneider. With Dr. Oliver and Senor Carl Junge, the owner of a very fine private zoo, made collections of the freshwater crustacea of this locality.

Feb. 18, 1927. Settled in Port Stanley, Falklands, most kindly received by Colonial Secretary Mr. J. M. Ellis and the Acting Governor, Col. Beattie, and Mr. M. M. Gresham, of the Falkland Island Co., and, in particular, by Drs. F. G. W. Deane and Dr. J. M. Coutts, the Colonial Surgeon and Dentist respectively. In fact, the Falklands was one of the most hospitable places it was my good fortune to visit.

Mar. 2 - 13. On board Str. "Fleurus", to Deception Island and return in endeavour to meet Dr. Stanley Kemp, Director of the "Discovery" Expedition. Some collections made enroute.
March 14 - April 28, 1927. In Port Stanley. Unable to leave for Punta Arenas on March 23 as originally expected, forced to remain until 28th. Through kindness of Mr. and Mrs. Robert Greenshields and Mr. and Mrs. Jack Felton was enabled to visit Salvador and Teal Inlet, connecting with the north coast of East Falkland. Secured some valuable collections, and, through local school children, particularly Miss Eileen Felton, obtained some of the best material secured in the Falklands.

May 1, 2, 1927. In Punta Arenas, shipping collections, leaving on 2nd for Buenos Aires.

May 3-12, 1927. Enroute Punta Arenas to Buenos Aires, making stops and collecting at Rio Gallegos, May 4, Santa Cruz May 5, San Julian May 6, Puerto Deseado May 7, Commodoro Rividavia May 8, Puerto Madryn May 9, arriving Buenos Aires May 12.

May 13-16, 1927. In Buenos Aires, visiting Museum at La Plata May 14; two days were spent at Buenos Aires Museum selecting and packing additional crustacean material for study in connection with the primary objects of the expedition. I must again express my appreciation for the generous cooperation of Dr. M. Doello Jurado, the Director of the Museo de Historia Natural "Bernadino Rividavia."

May 16-19, 1927. In Montevideo revisited Senors Juan Tremoleras and Florentino Felippone, correspondents of the Museum of long standing; with the latter made a collecting trip to Carrasco.

May 20-23. En route to Santos, Brazil. Spent 23rd in Sao Paulo at the Museum with Dr. Luederwalt, leaving May 24 for Rio. In Rio de Janeiro but a few hours.

May 25-June 7, 1927. En route Rio to New York, with but few hours stop in Bahia, Brazil, to pick up stranded passengers of the Western World; no opportunity to go ashore.

June 10, 1927. Returned to Museum.
Bacon Scholarship

              much assistance was rendered me
              by Senor Pierre Montana;
              Netherlands Consul in this port.
Oct. 15: Return to Sal.
Oct. 17 - 26. Collecting in and near Salaverry, including mocha and Rio Mocha Penn. At Salaverry, Mr. Lloyd Sears, the local spice agent, was exceedingly helpful, not only in furthering the object of the research, but in introducing the objects of interest in these regions, and with his most generous hospitality taking me in as a member of his family during my stay at Salaverry.

Oct. 26. Sailed in Callao, remaining until Nov. 10. Divided time between Lima, Callao and nearby localities. Through the kindnesses of Mr. Amer. Consul, the American Consul, the American consul, Mr. Jordan (S. C.), U. S. N., in particular...
and Secretary of Marine it was possible to spend several days collecting at the Peruvian naval Base on San Lorenzo Island and dredging off the island. Also visited the new archeological museum. The Julian Seller, the director. Proposed active cooperation in obtaining a typographical museum a representative series of the civilizations of his country. In his studies of the Chaco civilization he has encountered many representations and adaptations of animal forms. These he wishes to determine and in order to do so must have the present forms of some worked up in such a way that description and illustrations are readily available.
Nov. 10. Sailed for Valparaiso, Chile, making stop at collection en route at Socopilla, Antofagasta, Chañaral, and Cruy Grande.

Nov. 18. Arrive in Valparaiso.

Nov. 19 - 23. At Museo Nacional in Santiago, rendered helpful assistance by the Carlos Porto, well known Ammeiden of the national museum. Tho. Alfred to Edward Moore the Director and the Juan Brüggen of the University of Chile furnished the dozen of South American herbariums, and with constant enthusiasm, a most friendly acquaintance made at the museum by Alfredo Fasce.

Nov. 24 - 26. In Valparaiso awaiting schnemen for Juan Fernandez.

Nov. 27. Abroad schnemen for Juan.
Of special mention must be made of the friendly spirit of cooperation expressed by the Chilean Fisheries Department, directed by Roberto Maldonado. A most helpful cooperation was promised, the Fisheries Department among collectors of the crustacea fauna with a view to its determination and return by the U.S. National Museum in return for a complete representation of the species.
Hernandez, sailing 29, among
off island. Dec. 7, remained
until Dec. 27. Was enabled
to observe one of the most
product, crustacea fishery, that of the
Juan Hernandez, King lobster,
(Calinoeus frontalis)
made examination and collection
of the marine invertebrate fauna.

Extended over genera. Hospitality
extended over genera. Hostility
by Sen. Rene Hernandez, at
whose payment house a direct
my stay at the place. It
was through the kind solicitation
of Sen. Alfredo E. Irin.
Passengers, Agent of theGrace
Shone and Veltmann, that
Sen. Donia I. Recuerd and Dona
1927

He returned to Santiago, held meetings with notable local museums.

Jan 9-11 Dr. Santiago presented the. Pater and Brugge

Jan 12 Arrive in Concepcion. Visted the very excellent museum maintained by the University of Concepcion under the able direction of Carlos Oliver Schneider, with the Olivares and

Sesun Carle Fleming, the owner of a very fine Jirumpe pop made collection of the Peruvian

indians of this locality.
